WORK EXPERIENCE

Associate Principal

LTIMindtree

07/2018 - 06/2025

Chennai, India

Achievements/Tasks

- Worked on large-scale enterprise and eCommerce web applications for global clients across FMCG and healthcare domains. Developed scalable front-end applications using React.js, Angular, and Gatsby with Server-Side Rendering (SSR). Built Single Page Applications (SPAs) and SSR-based platforms with a strong focus on performance optimization, SEO, and usability. Led front-end performance optimization initiatives, improving page load time, rendering efficiency, and overall user experience. Owned and supported production deployments on Google Cloud Platform (GCP), ensuring stable releases and post-production support. Acted as a Team Lead, mentoring developers, conducting code reviews, and ensuring adherence to UI best practices. Collaborated closely with business stakeholders, backend teams, and UX designers in Agile / SCRUM environments. Actively involved in debugging, DOM analysis, unit testing, and TDD, resolving complex issues and ensuring application stability.

Front End Developer

Tata Consultancy Services

03/2013 - 07/2018

Chennai, India

Achievements/Tasks

- Designed and developed responsive, user-interactive front-end applications using HTML, CSS, JavaScript, and Bootstrap, ensuring consistent behavior across browsers and devices. Worked extensively on Hybris UI development, leveraging HTML, JSTL, LESS, JavaScript, jQuery, and Bootstrap to build scalable and reusable UI components for eCommerce platforms. Developed and enhanced UI modules using Angular and JSP, contributing to dynamic, data-driven user interfaces. Implemented responsive layouts and UI best practices, focusing on usability, accessibility, and performance. Collaborated with backend and business teams to translate requirements into high-quality, maintainable UI solutions.
